

# PretonSaver Premium System Requirements

## General Requirements

- Administrator rights for the computer on which Preton is being installed.

## Software Dependencies

PretonSaver depends on the following software components:

- .NET Framework 2.0 and above

---

**NOTE:** Software dependency components should be installed prior to installing PretonSaver.

Step-by-step instructions are provided for installing the software dependencies mentioned in this section. For more information, see **Error! Reference source not found.**

---

## Software Requirements

Before you install any PretonSaver software components, you must confirm your server and desktop machines are able to support the required software.

### Preton Coordinator (Server Software)

The following lists the Preton Coordinator system requirements.

#### Hardware Requirements

- Intel Core 2 Duo CPU
- 2-4 GB RAM
- 1 GB available disk space

---

**NOTE:** If you want to use a single Preton Coordinator server machine for the entire organization, we recommend you use appropriate server-standard hardware, i.e. using dual processors, and a minimum configuration of 4GB RAM installed.

---

## Software Requirements

- Microsoft Windows Server 2008 SP2
  - Microsoft Windows Server 2003 SP2 and up
  - Microsoft Windows XP SP2 and up (See note below)
  - Microsoft Windows Vista SP1 and up (See note below)
  - Microsoft Windows 7 (See note below)
  - .NET Framework 2.0 and up
- (all 32-bit or 64-bit)

---

**NOTE:** Microsoft Windows XP SP2, Vista SP1, Windows 7, is only sufficient for small test installations of up to 100 users.

---

## Preton Control (Server Software - GUI of Preton Coordinator)

### Hardware Requirements

- Intel Pentium 4 or AMD Athlon CPU
- 1GB RAM
- 10 MB available disk space

### Software Requirements

- Microsoft Windows XP SP2 and up
  - Microsoft Vista SP1 and up
  - Microsoft Windows 7
  - Microsoft Windows Server 2003 SP2 and up
  - Microsoft Windows Server 2008 SP2
  - .NET Framework 2.0 and up
- (all 32-bit or 64-bit)

# PretonSaver Client (Desktop Client Software)

## Hardware Requirements

- Intel Pentium IV or AMD Athlon CPU
- 1GB RAM
- 10 MB available disk space

## Software Requirements

- Microsoft Windows 2000 SP4
- Microsoft Windows XP SP2 and up
- Microsoft Vista SP1 and up
- Microsoft Windows 7
- Microsoft Windows Server 2003 SP2 and up
- Microsoft Windows Server 2008 SP2
- .NET Framework 2.0 and up

(32-bit or 64-bit; Windows 2000 on 32-bit only)

---

**NOTE:** Recommended WMI (Windows Management Instrumentation) service running.

---
